

BHADRAVATI HOME

Warm Contemporary Minimalism

FINAL Interior Design Package

First-floor studio · Bhadravati, Karnataka

Client handoff · Design control (not fabrication-approved)

Living — social zone (daylight concept)

Generated 2026-08-11 · Concept A locked · coordination: integration_complete

1. Design direction summary

The home will feel calm, practical, and locally believable — not a pale decorative showroom and not textbook Japandi. Architecture and usable circulation come before styling.

Problems solved: dust/smoke visibility; hard-water streaking; monsoon humidity at wet joinery; glare under strong daylight; repairability; and prior visual QA failures (wrong openings, flipped kitchen, invented cabinetry, false gloss, unsafe clearances, climate-mismatched props).

Non-negotiables

- Existing **black granite** kitchen remains; **shutters only**.
- Kitchen base + drawers + loft = **Century S1241 MT Latte** only.
- Hardware = **brushed stainless recessed** pulls (J-pull / finger-pull) — no projecting bars.
- Lighting = **3000 K** warm-neutral baseline; finishes = **matte / low-sheen**.
- No TV feature wall, island, L-kitchen flip, gold strips, slatted Japandi props, or gloss laminates.

Concept decision

Concept	Decision
A — Warm Contemporary Minimalism (NN9074 + Latte kitchen + Idria wardrobe)	FINAL
B — Textbook Japandi	Reject as governing style
C — Dual-tone kitchen / lighter default walls	Reject

Studio relationship (plan evidence only): $\approx 21 \times 18 \text{ ft}$ (**6401 × 5486 mm**). Zones: Bedroom SW · Living S-centre · Kitchen SE · Bathroom NW · Wardrobe N-centre · Study NE.

2. Locked palette & finishes

Screen hex values are approximate references. Approve physical samples beside granite under morning / afternoon / 3000 K light.

3. Key dimensions — K-01 / W-01

Clear openings are the design baseline until a signed site measure supersedes them. Granite thickness conflict on drawing (1.50 in vs 15 mm) — measure stone on site.

Circulation targets: primary 900–1200 mm · secondary 600–900 mm · sofa–coffee 450–500 mm · bed sides ≥600 mm · wardrobe standing clear ≥600 mm (prefer 900 if primary aisle).

4. Floor plan

Scale-true dimensioned floor plan (relational; not a cut sheet)

5. Living — concept views

Living — social zone, daylight

Living — from TV toward sofa

6. Kitchen — granite + Latte shutters

Existing black granite retained. All shutters Century S1241 MT Latte with recessed brushed stainless pulls.

Kitchen — granite with Latte shutters

Kitchen — from fridge along run

7. Wardrobe options A / B (3-door)

Locked: three vertical leaves (1 single + 1 double), widths **457 / 457 / 458 mm** inside clear **1372 × 2286 × 488 mm**.
Recessed pulls only. Client chooses face Option A or B after sample review.

Option A — Aluminium frame + fluted glass

Option B — Plywood / Idria face

Bedroom continuity — three-door plywood wardrobe

8. Next 3 actions & site-measure residuals

1. Sign the site-measure sheet

Kitchen, wardrobe niche, and all openings — photograph tape end-to-end. Resolves granite thickness conflict and any PDF/photo dimension disagreements.

2. Approve the physical sample board

NN9074, WW0005, S1241 MT Latte, 84689 SU Idria (or plywood Option B), 80236 DW, E3 1 mm & 2 mm edges, recessed brushed SS pull — beside granite under morning / afternoon / 3000 K light. Choose wardrobe Option A or B.

3. Lock fabricator shop drawings + quotation

One kitchen laminate, three wardrobe leaves (single + double, 457/457/458), board grades, edges, recessed hardware, service access — then commission plan-faithful visuals from locked geometry only.

Site-measure residuals

- Confirm K-01 / W-01 clear openings on site (supersede drawing baseline if different).
- Measure existing granite thickness (drawing conflict: 1.50 in vs 15 mm).
- Verify window/door sizes — prior PDFs may conflict; do not invent dimensions from photos.
- Confirm kitchen orientation (sink under window, fridge right, single wall).
- Photograph tape measures end-to-end for audit trail.

Important: Images and diagrams are conceptual. This package is design-control only — not fabrication-approved until signed site measure and physical sample approval.
